

## King Charles III's Coronation

The historic Coronation ceremony at London's Westminster Abbey was attended by more than 2,000 people including world leaders, foreign royalty and members of the Royal Family on the 6<sup>th</sup> May 2023 and millions of people watched from around the world.

Lots happened during the Coronation day on Saturday - so here's our round-up of the historic event.

As the King and arrived, church bells rang outside Westminster Abbey.

The **regalia** was carried ahead of the King through the Abbey and placed on the altar as they were needed for the ceremony.

The UK is the only European country that still uses **regalia** - the symbols of royalty like the crown, orb and sceptres - in coronations.

The individual objects symbolise different parts of the service and responsibilities of the monarch.

These objects were given to King Charles at key moments in the ceremony.

There were several stages to the two hour service.

First of all, the congregation at the Abbey pledged their allegiance to the King and proclaimed him the "undoubted King".

After taking an oath where he promised to do the duties of the monarch, the King was anointed with holy oil before being presented with the items of regalia.

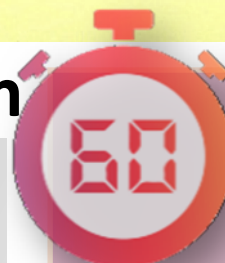

They including the Royal Orb, representing religious and moral authority; the Sceptre, representing power; and the Sovereign's Sceptre, a rod of gold topped with a white enamelled dove, a symbol of justice and mercy.

Charles was then officially crowned by the Archbishop of Canterbury.

At New City we celebrated the King's coronation in style too! The BBC visited New City to film us preparing for the celebrations and we had lots of fun activities planned.

Researched and written by Ruby McIntosh.

## seconds

Our in house journalists Aisha Haque and Sameeha Rahman interviewed Mr Freeland.

Read on to find out more!

### What is your biggest fear?

My biggest fears are heights and monkeys!

### What dishes can you cook?

I can cook fajitas and spaghetti hoops.

### What countries have you travelled to?

I've been to Mexico, Spain and Iceland.

### What's your favourite subject?

History.

### What crazy fact do you know?

Male seahorses give birth!

### Do you collect anything?

I collect Pokémon cards.

This term the Eco—Warriors have been working hard to stop littering.

Litter affects our streets, parks and beaches and costs us millions of pounds to clear up every year. We want to inspire people to eliminate litter now and for future generations.

Never get it wrong again!

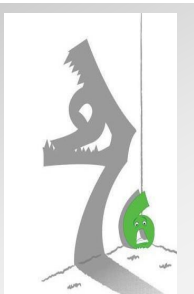

There	Their	They're
<b>Adverb</b> Refers to a place	<b>Show ownership</b> Something that belongs to a group of people or animals.	<b>Contraction</b> They are
<b>Pronoun</b> 		
For example: • She lives over <b>there</b> . • <b>There</b> is nothing wrong with her.	For example: • <b>Their</b> house is new. • <b>Their</b> fur is thick. • The red car is <b>theirs</b> .	For example: • <b>They're</b> going to the shopping centre. • <b>They're</b> nice shoes.

For each sentence below, decide which is the correct version for there/ their/ they're.

- The house is over \_\_\_\_\_.
- \_\_\_\_\_ going to the shops later.
- Do you think \_\_\_\_\_ hiding behind the trees?
- They lost \_\_\_\_\_ coats at playtime.
- The one over there with the yellow wall is \_\_\_\_\_ house.
- Red skittles taste great, \_\_\_\_\_ my favourites.
- The rain soaked \_\_\_\_\_ coats.
- Is \_\_\_\_\_ anyone that can help me?
- I went \_\_\_\_\_ for my holiday too!
- On Tuesday, \_\_\_\_\_ going to go watch the football.

Why was 6 afraid of 7?

ANSWER: Because 7, 8, 9!

# GOOD DEED FEED

Thank you to Billy for all of our Music lessons and teaching us how to play lots of instruments.

Ruby 5S

Thank you to all the adults who helped us with our SATs.

Maryam 6W

Even numbers can be paired up.

3+3  Odd  Even

Odd numbers have 1 number leftover from the pairs.

8+1  Odd  Even

Try these:

12+2  Odd  Even

10+3  Odd  Even

did you know?

### CRAZY CURVES

Did you know that you can make curves using a ruler?! This type of curve is called a **parabolic curve**. Use the grid below to create a cool parabolic curve design.

**WHAT TO DO**  
Use a ruler to draw straight lines to connect matching numbers between each V-shape (1 to 1, 2 to 2 etc). Then check out the shape that forms!

### TINY TRIANGLES

Create tiny triangle 'tile' patterns using square grid paper and a pen.

**WHAT TO DO**

- Make a right-angled triangle by drawing a diagonal line through one of these tiny squares and colouring one side in...
- Now you have two right-angled triangles - one filled in, one white. Try it!
- Draw triangle tiles next to each other to make a larger pattern...
- Keep the pattern going!

Make your own triangle tile patterns here!

### EULER'S CHALLENGE

Can you trace over these drawings, starting and ending at the same dot, without lifting your pencil? You can only go over each line once!

They might be tricky, but they are do-able. Now try this one...

### PUZZLE BOOKS!

These awesome activities are taken from **This is Not a Maths Book** by Anna Weltman. Learn how to create a dazzling array of amazing mathematical patterns and shapes, from perfect circles to impossible triangles.
