

Global Warming

What is Global Warming?

Global warming is the long-term heating of Earth's climate system monitored since the pre-industrial period (between 1850 and 1900) because of human activities, mainly fossil fuel burning, which increases heat-trapping greenhouse gas levels in Earth's atmosphere.

Since the pre-industrial period, human activities are estimated to have increased Earth's global average temperature by about 1 degree Celsius per decade. It is without a doubt that humans have influenced this.

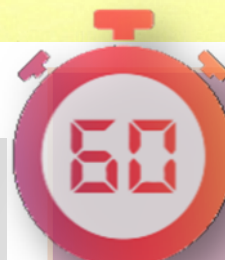

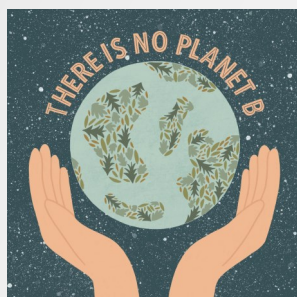

This graph shows the change in global temperature from 1880 to 2020.

It is everybody's responsibility to take care of the Earth. We can all help to make a change by making small changes that will make a big difference.

Each class has made a pledge to help do their bit. This is a great idea. If we all fulfil our pledges then that means we are all doing our bit to help save our planet.

Do your bit.

seconds

Our in house journalist s

Nana Nketia and William Nishoni

interviewed Mr Aloum. Read on to find out more!

Why did you become a teacher?

So I could change the life of children and I enjoy working with them. They make me laugh and cry!

Where do your family originate from? What language can you speak?

My family are from Bangladesh and I can speak Bengali.

How long did it take you to learn your times tables? Do you have any tips?

I learnt them by the age of 11. I practised every day for 10 - 15 minutes.

If you weren't a teacher, what would you be?

I wanted to be a footballer. When I was 16, I wanted to be a policeman.

Have you met anyone famous?

I've met Mo

Farrah who is a famous runner and Amir Khan who is a famous boxer.

GOOD DEED FEED

Thank you to Ms Kirkpatrick for being an amazing Reception teacher.

Cira 3D

Thank you to Mrs Stone for organising the bagels in the morning. They are a great idea.

Newspaper Club

I want to say thank you to

Zakaria for being a kind and **caring** friend. You always make me laugh.

Harry 1T

Thank you to Mr Archer for starting Football Club. I am having so much fun!

TIMES TABLES ROCKSTARS

Knowing your times tables is a life long skill. Here are some tips to help you. Remember, practise make perfect!

FACTS	STRATEGY
1	It's Just That Number! $1 \times 5 = 5$
2	Double It! $2 \times 6 \rightarrow 6 + 6 = 12$
3	Double It and Add a Group! $3 \times 7 \rightarrow 7 + 7 = 14 \rightarrow 14 + 7 = 21$
4	Double, Double! $4 \times 8 \rightarrow 8 + 8 = 16 \rightarrow 16 + 16 = 32$
5	Count by 5's That Many Times! $5 \times 7 \rightarrow 5, 10, 15, 20, 25, 30, 35$
6	Multiply by 5 and Add a Group! $6 \times 6 \rightarrow 5, 10, 15, 20, 25, 30 \rightarrow 30 + 6 = 36$
7	Multiply by 5 and Add a Double! $7 \times 4 \rightarrow 5, 10, 15, 20 \rightarrow 20 + 8 = 28$
8	Double, Double, Double! $8 \times 6 \rightarrow 6 + 6 = 12 \rightarrow 12 + 12 = 24 \rightarrow 24 + 24 = 48$
9	Multiply by 10 and Subtract a Group! $9 \times 6 \rightarrow 10 \times 6 = 60 \rightarrow 60 - 6 = 54$
10	Count by 10's or Just Add a Zero! $10 \times 4 \rightarrow 10, 20, 30, 40$
11	Multiply by 10 and Add a Group! $11 \times 6 \rightarrow 10 \times 6 = 60 \rightarrow 60 + 6 = 66$
12	Multiply by 10 and Add a Double! $12 \times 6 \rightarrow 10 \times 6 = 60 \rightarrow 60 + 12 = 72$

$9 \times 10 = 90$
 $9 \times 1 = 9$ $9 \times 4 = 36$ $9 \times 7 = 63$
 $9 \times 2 = 18$ $9 \times 5 = 45$ $9 \times 8 = 72$
 $9 \times 3 = 27$ $9 \times 6 = 54$ $9 \times 9 = 81$

Your hands can help!
Example: to multiply 9 by 8, hold your 8th finger down, and count "7" and "2", the answer is **72**.

By William

What did one snowman say to the other snowman?

ANSWER:

Do you smell carrots?

Never spell it wrong again!

Here's an easy way to remember.

Could Would
Should

O - Oh
U - you
L - lucky
D - duck!

did you know?

...Being a relatively small Island, the UK's rivers are not very long.

The longest river in the UK is the river Severn, just 220 miles in length. It begins in Wales and enters the Atlantic Ocean near Bristol in England.

Other major rivers include the Thames, which flows through Oxford and London, and the Trent and Mersey rivers, which drain rainfall from large areas of central England.

See if you can spot them in the word search?

- Wye
- Clyde
- Liffey
- Spey
- Dee
- Mersey
- Shannon
- Exe
- Trent
