New City Primary School Year group: 6 Spring Term 2024

Happy New Year. This term we are doing some very interesting and exciting things. We are keen to encourage parents and carers to help in their child's learning at home and as such we are providing you with this overview of what we shall be teaching at school. We also value any resources that you can contribute related to any of our topics. We also ask you to help us by making sure that all homework is completed. If you have any queries please feel free to have a chat with us.

English	Maths	Science
In English, the children will review styles of writing including	In maths, the children will be enhancing their arithmetic	In science, the children will look at how plants and animals
